Track: Interface Design (UI/UX)

WORK EXPERIENCE

RWD Consulting, LLC, Washington, D.C.   May 2019-Present
Contractor
- Hired to fulfill a three year contract as a SharePoint Developer for TSA.

Transportation Security Agency (TSA), Arlington, VA & Springfield, VA   May 2019-August 2022
Contracting & Procurement Office - Acquisitions Support Division
Jr. SharePoint Developer & Administrator
- Served as a Sharepoint Administrator for a Federal Acquisition Tool. Responsible for monitoring the system, creating accounts, generating reports, and training others by creating standard operating procedure (SOP) guides.
- Developed and maintained 7 web pages on a regular basis as a Sharepoint Designer.
- Responsible for designing a theme that would uniform all websites across the Division.
- Regularly used quality assurance testing on all projects.
- Utilized Photoshop to design banners and backgrounds specific to each web page.
- Expanded my services to assisting the other divisions of the office as they were in need of a developer for their own iShare pages.
- Played an important role in creating the on-boarding process for new employees using my own experience.
- Updated my team weekly on on-going work and documented completed work monthly.
- Took over responsibilities of senior developer ensuring all projects stayed up to speed and adapting to the demands of customers.
